- MFG# HATB007240

INCREASE
DELIVERABLE
**HOT
WATER**
UP TO
45%

**MORE
HOT WATER**

Works on both gas & electric water heater tanks. Activates to heat water when the tank outlet drops below the set temperature.

**SAVE
SPACE**

Ideal for multifamily. Installs directly on a tank outlet and delivers more hot water without needing to increase the tank size.

**SAVE
ENERGY**

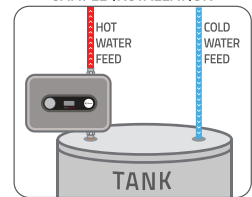

Save energy with Vacation Mode and Eco Mode features with an electric tank to switch off power to the tank when it isn't needed.

**SAVE
MONEY**

AutoBooster requires a simple, one trade install and avoids the cost of a new, larger tank installation.
